

KEN BEDPAN WASHER DISINFECTOR 736

Intelligent Disinfection

- CLEAN, LEAN & GREEN

- Total disinfection
- Easy service access
- √ Complies with 15883

The BWD 736 has been developed for hospitals, special wards and nursing homes. It is useful for washing and disinfection of bedpans, urine bottles, washing bowls, suction glasses and similar utensils.

It has a small compact design with a large capacity which leaves a small physical footprint. Furthermore, the machine is environmentally optimised with a low consumption of energy, water and detergents, which leads to low operational costs.

The BWD 736 is easy to operate by touch panel with icons showing all relevant information of the program needed by the operators.

The machine is functional as wall-mounted, however it can be floor-mounted with a plinth.

The different bedpan holders take all types of bedpans. The capacity of BWD 736 is three bedpans or one bedpan and three urinal bottles per cycle.

A special utensils basket is available for washing kidney bowls and other small items.

All data from the BWD 736 are fully exchangeable with common computer systems.

HEALTHCARE

All KEN machines are in conformity with present EU directives, and all the hospital machines have been constructed in accordance with EN ISO 15883.

		Description	Values
Advantages:		Outer dimensions with/without plinth	H: 1740/1540 x W: 600 x D: 460 mm
		Operative chamber dimensions	H: 500 x W: 485 x D: 370 mm
Environment		Weight with plinth/without plinth	110 / 100 kg
	Low energy costs	Built in combitank	12 L
	Low water consumption	Built in detergent cabinet	Room for 2 x 5 L cans
	Low chemical usage	Capacity, alternatively-	1 bedpan + 3 urine bottles OR
	Low noise level		3 bedpans (2 with urine) OR 3 washing bowls OR 1 utensil basket OR
Us	er-friendliness		1 suction bottle OR 1 bucket
	Easy to use icons	Bedpan program	Appr. 6 min
	Quick-start - automatic closing	Sealing class	IP 21 (not rinse-proof)
	Door suitable as slopsink - bedpan	Water connections	Cold: 3/4" G (poss. 1/2" pipe), press.: 200-
	emptied automatically		800kPa, temp.: 5-30°C, hardness: 0-3°dH
	Operated manually or automatically by		Hot: 3/4" G (poss. 1/2" pipe), press.: 200-800kPa, temp.: 5-30°C, hardness: 0-3°dH
	means of a foot pedal	Sound pressure ISO 11204 L	Appr. 50 dB (A)
Hygiene safety		Water consumption per phase	See technical manual
	EN 62366 tested	Power supply options	3N x 200 - 440V AC 50/60Hz +PE+(N) (Single phase available)
	EN ISO 15883-1-3-5	Heating elements in combitank	6 kW / 9 kW
	Disinfection guarantee	Programs available	5 standard + 1 optional
